

## OCP Project Manager

You will most likely have following experience and capabilities, although we never prejudge anyone and freely accept that people make the difference:

1. 5 years plus business experience, most likely worked for larger/ medium sized organisations (PLC) beyond and within NI, but looking for more freedom, ability to help develop and shape a business
2. Will have project management experience as part of project team/s running sub-projects or leading projects and capable of stepping up to take on responsibility
3. Excellent IT skills including presentation, spreadsheets and document development
4. Self delivery, self starting, prepared to roll-up the sleeves, communicator and find work fun
5. Ability to work within teams, understand team dynamics, have experience of working within a range of projects and have a broad spectrum of experience and proven successful delivery
6. Ability to work with clients to produce high quality project documentation, manage on-line shared space and work closely with both external and internal project team members
7. Good communication skills, ability to run a meeting and very customer focused with ability to be able to understand a project and deliver objectives, deliverables and effectively communicate into wider teams
8. Experience in procurement, tendering and negotiation would be an added benefit

OCP is offering the right person the opportunity to continue developing their career in a very small start-up business that has plans to grow and offer opportunities to its team.

The package on offer will be agreed with the right individual and will focus on success and value input.
