

OCP Senior Project Manager

You will most likely have following experience and capabilities, although we never prejudge anyone and freely accept that people make the difference:

1. 10 to 15 years business experience, most likely worked at a senior level within larger/ medium sized organisations (PLC) beyond and within NI, but looking for more freedom, ability to help develop and shape a business
2. Have a good grasp of project management theory, practice and modern ideas and able to demonstrate your own understanding and ideas on project management delivery (and we don't just mean MSP or PRINCE)
3. Excellent IT skills including presentation, spreadsheets and document development
4. Self delivery, self starting, prepared to roll-up the sleeves, communicator and find work fun
5. Ability to lead teams, understand team dynamics, have experience of working within a diverse range of projects and have a broad spectrum of experience and proven successful delivery
6. Good financial skills with ability to work with clients to develop risks, programme planning and preparation and work at both strategic and direct delivery levels
7. Good client management experience and very customer focused with ability to be able to dissect a project in its early stages and establish key requirements, objectives, deliverables and effectively communicate into wider teams
8. Experience in procurement, tendering and negotiation would be an added benefit

OCP is offering the right person the opportunity to continue developing their career in a very small start-up business that has plans to grow and offer opportunities to its team.

The package on offer will be agreed with the right individual and will focus on success and value input.
